The contract will begin on March 25, 2014 and run through March 24, 2015 at a cost of $37,513. TBRPC owns this version of the model separately from the Council version to allow all RPCs in the state to have REMI. $18,513 is for the annual data and licensing while the balance is for the other RPCs to receive secondary user licenses and unlimited technical support from REMI staff. All costs are paid by the six RPC secondary users, not TBRPC. TBRPC has been a REMI user since 1999 and continues to provide technical support and assistance to the Council’s members, economic development organizations, Tampa Bay Partnership and others. The REMI model can be used to forecast the economic and demographic effects of policy initiatives. Policy Insight answers the “What if...?” questions concerning regional and local economies. Any type of policy that influences economic activity can be evaluated including economic development, transportation, energy, environmental, and taxation.

6. Joe Lopano – Airport Master Plan
Mr. Joe Lopano, CEO of the Hillsborough County Aviation Authority will provide an update of the Tampa International Airport (TIA) Master Plan.

In late 2011, airport officials began the process of updating the master plan for its 3,300-acre campus. Ultimately, taking into account forecasts for passenger growth, the plan provides an outline of airport improvements and future land use to better serve passengers, airlines and other tenants as well as regional tourism, transportation and business growth for the next 20 years. The update was a collaborative effort, with significant input from the community. The final recommendations allow for a scalable approach to growth as passenger demand dictates, extending the life of the existing main terminal until the airport reaches 34.7 million annual passengers.
