

November 2, 2018
1:30 PM to 3:30 PM
Tampa Bay Regional Planning Council
4000 Gateway Centre Blvd. Suite 100
Pinellas Park, FL 33782
www.tbrpc.org

1. Welcome and Introductions

2. USF/UF/Manatee Peril of Flood project: Where do communities stand?

In partnership with USF and UF, TBRPC is working to assess local government implementation of the Peril of Flood act, including assessing vulnerability through the Florida Department of Environmental Protection, Florida Resilient Coastlines Program.

3. Resilient Tampa Bay: Transportation Pilot - a Multi-County Project

The Resilient Tampa Bay: Transportation (RTBT) Pilot Project is part of the Federal Highway Administration's (FHWA) [Resilience and Durability to Extreme Weather Pilot Program](http://www.fhwa.gov/ohp/ohp/resilience/). FHWA is partnering with State Departments of Transportation (DOTs) and Metropolitan Planning Organizations (MPOs) and others to assess, develop and deploy resilience solutions to extreme weather events, reducing future maintenance costs over the life-cycle of transportation assets and decreasing the social and economic impact to the community.

- The project team would like to introduce the study to the One Bay Resilient Communities Working Group and seek it's input throughout the project.
- Discuss progress
- Discuss Survey

More information can be found at <http://www.planhillsborough.org/resilient-tampa-bay-transportation/>

4. Regional Roundup, including TBRRC update

5. RTBT Citizens Advisory Committee Meeting (Immediately following One Bay meeting)
