

RECAP OF THE SEPTEMBER 10, 2020 STATE EMERGENCY RESPONSE COMMISSION MEETING (VIRTUAL)

The September 10, 2020 State Emergency Response Commission (SERC) meeting was conducted virtually. This condensed meeting agenda was the result of a previously-canceled April 2020 meeting and a postponed July 2020 SERC meeting in order to evaluate and approve necessary business items. While such Recap typically reflects discussion/dialogue from SERC's Training Task Force and the LEPC Staff & Chairs conducted the day prior, such meetings were not held this quarter. The SERC meeting was chaired by the Deputy Director of the Florida Division of Emergency Management (FDEM)/SERT Chief Kevin Guthrie. The meeting was punctually called to order at 10:00 a.m. and proceeded with a roll call of SERC members in attendance.

APPROVAL OF MINUTES

Following no request(s) for modification(s), Chair Guthrie solicited a motion to approve the *Minutes* from the January 22, 2020 meeting held at the at the Plaza Resort & Spa in Daytona Beach. With such motion provided and seconded, the *Minutes* were approved unanimously upon voice vote.

NEW BUSINESS

- LOCAL EMERGENCY PLANNING COMMITTEES APPOINTMENTS** - Chair Guthrie indicated that the LEPC membership modifications being requested by the LEPCs are/were included in the SERC packet. A question was posed by SERC member Mark Tumlin as to whether one member can simultaneously be reflected on more than one LEPC roster. After a brief delay to research this, FDEM Counsel Erik Saylor determined that nothing in the *LEPC Bylaws* would prohibit or preclude dual memberships with the exception of a representative(s) that serves in the "Interested Citizen" category. Following issuance of this legal opinion, a motion and a second were made by SERC members. All LEPC membership changes were approved unanimously upon voice vote. [The membership changes for the Tampa Bay LEPC approved in conjunction with the current meeting were: the redesignation of Primaries/Alternates for Florida Department of Environmental Protection (*Lindsay Brantley/Jordan Luscier*), Mosaic Plant Operations (*Gary Doyen/Wesley Williams*), Pasco County Emergency Management (*Monica Santiago/Steven Smith*), Florida National Guard/48th Civil Support Team (*Kandiss McFarlane-Proctor/Erik Partridge*), Hernando County Fire Rescue (*Kenneth Wannan/Kristian Sloane*), and Citrus County Fire Rescue (*Thomas Fletcher/Kevin Pappadopoulos*); an appointment from Manatee County Board of County Commissioners (*Comm. Misty Servia*); as well as the redesignation of the Alternates from Tampa Fire Rescue (*Todd Alt*) and MacDill AFB Emergency Management (*Daniel Moss*).
- AUDIT/INSPECTION WORK PLAN FOR THE RISK MANAGEMENT PLANNING (RMP) PROGRAM FOR FY 2020-21.** FDEM Staff Robert Dietrich did indicate that a proposed FY 2020-21 RMP audit/inspection schedule was provided within the SERC Agenda materials. He did mention that several of these sites are/were carried over from FY 2019-20 since many of the inspections were cancelled on account of COVID-19 and the corresponding alternative duties assigned to the RMP Inspectors. Following SERC member Mark Tumlin's inquiry, Mr. Dietrich affirmed that the RMP Inspectors will comply with any/all of the safety

procedures/protocols that may be mandated by the facilities being assessed in regard to COVID-19. The schedule spans the period of November 2020 - March 2021 and does not include any facilities within the Tampa Bay LEPC District. The proposed Work Plan and corresponding schedule were approved unanimously upon voice vote.

REPORTS

- **UPDATE ON LEPC ACTIVITIES.** Richard Delp advised that each of the LEPCs have continued to conduct their quarterly meetings virtually while trying to locate in-person and/or virtual hazardous materials training for their public-sector first responders while maintaining and adhering to all Contract requirements of the LEPC Staff Services & HMEP Contracts to the maximum extent possible. Additionally, *Hazmatters* reports for each LEPC were provided within the SERC Agenda materials detailing the activities and initiatives which have been implemented by each LEPC for and within their respective Districts.

The following was identified for the Tampa Bay LEPC District for the period of January - July 2020 within the Agenda materials:

- Tampa Bay LEPC staff was involved in a number of activities during the past two quarters. LEPC staff did attend the January 21-22, 2020 SERC quarterly meetings held at the Plaza Resort & Spa in Daytona Beach although the April 16-17, 2020 SERC meetings, scheduled in St. Augustine, were cancelled on account of COVID-19. An in-person quarterly meeting of the Tampa Bay LEPC meeting was held on February 26th at the offices of the Tampa Bay Regional Planning Council and a virtual LEPC quarterly meetings of the Tampa Bay LEPC were held on May 27th.
- The Tampa Bay LEPC's HMEP Training Subcommittee also met on February 26th (in-person) as well as May 27th (virtually). The primary objectives of the meetings were to strategize, prioritize, determine and stipulate training expenditures for the remainder of the FY 2019-20 HMEP Training Contract.
- Training expenses were incurred by the Tampa Bay LEPC during the 2nd Quarter. Those expenses consisted of: sponsorship of 37 students to attend the *2020 Hazmat Symposium*; sponsorship of four Hernando County Fire Rescue personnel to attend the 160-Hr. *Hazmat Technician Certification* course held at the State Fire College; and conduct of three 8-Hr. *Propane Incidents Response* courses for Southern Manatee Fire Rescue. A total of 53 students attended this latter training over the three days.
- While no training expenses were actually incurred during the 3rd Quarter due primarily to COVID-19 and corresponding measures that were implemented, several training events were scheduled for conduct during the 4th Quarter. Those events are: a 40-Hr. *Hazmat Medic* course on July 13-17, 2020 (course was subsequently canceled on account of COVID-19); three 8-Hr. *Rapid ID & Hazards Analysis 2020* courses on July 28-30 (attendance of 24 students daily was expected); conduct of a "Hybrid" 160-Hr. *Hazmat Technician Certification* course conducted by and for personnel of Southern Manatee Fire Rescue from January 7 - August 1 (11 students were expected); conduct of a virtual 16-Hr. *Hazmat Safety Officer* course between July 22 - August 19 (34 students were anticipated); and conduct of three 8-Hr. *Hazmat IQ* courses on September 15-17 (course was subsequently canceled on account of COVID-19); and conduct of three 8-Hr. *Hazmat Technician Capabilities Evaluation* courses for personnel of Hillsborough County Fire Rescue & Tampa Fire rescue on August 17-19.
- In terms of miscellany, LEPC staff additionally: facilitated the (nearly) monthly meetings of the Pinellas Police Standards Council (January 8th & March 11th); provided the FY 2019-20 HMEP Contract/1st Quarterly Report to FDEM staff electronically with no reimbursement(s) requested since no HMEP-funded project(s) was facilitated during the quarter (January 10th); attended and participated in the *Operation Jet Lag Exercise Mid-Term Planning/Master Events Scenario List Meeting* (January 14th), provided/submitted hard copies of the FY 2019-20 LEPC Staff Services/2nd Quarter Report and the FY 2019-20 HMEP Program/1st Quarter Report to FDEM in conjunction with the January 2020 SERC meeting (January 21st); submitted the Plan of Instruction (POI) and other required materials to FDEM/USDOT in association with a request to send six Hillsborough County Fire Rescue personnel to the 48-Hr. *Robert E. Rumens Marine Firefighting School* in Norfolk, VA on May 18-23 in which only registration fees were requested (February 3rd); attended the *Operation Jet Lag Final Planning Meeting* (February 4th). All of the meetings and the exercise were held at the

Sarasota-Bradenton International Airport jointly located in Manatee & Sarasota Counties; hosted the Tampa Bay LEPC's annual *Emergency Planning & Community Right-to-Know/E-Plan Filing Guidance* workshops (February 5th & 6th). The workshops drew the attendance of 58 individuals representing 45 different companies, agencies or facilities; provided the December & January *LEPC Activities/Initiatives* as well as the *SERC Recap* from the January 21-22 meetings to TBRPC members in conjunction with their February 10th meeting as well as the February *LEPC Activities/Initiatives* and the *LEPC Recap* from the February 26th meeting to TBRPC members in conjunction with their March 9th meeting; participated in the SERC's Training Task Force teleconferences (February 12th & March 11th); attended the (nearly) bi-monthly meeting of the Ammonia Handlers/Operators (February 20th); participated in the E-Plan Webinar/Workshop hosted by FDEM staff (February 20th); attended and assisted with evaluation of the Operation Jet Lag functional exercise conducted at the Sarasota-Bradenton International Airport (February 25th); while a scheduling conflict did preclude my personal attendance of the RMP Audits/Inspections of the Dunedin Water Treatment Plant (February 25th) and the W.E. Dunn Wastewater Treatment Plant (February 26th), as was administered by FDEM staff, other LEPC member(s) did attend; attended the RMP Audit/Inspection of the Cosme Water Treatment Plant (February 27th); submitted two additional HMEP proposals to be considered for implementation in the event additional funding is identified by FDEM (February 28th); while a scheduling conflict did preclude my personal attendance at the CAMEO, MARPLOT & ALOHA Software Training workshop held at the Hillsborough County Public Safety Complex, LEPC member Joe Mastandrea (Hillsborough County Emergency Management) did actually conduct the Workshop (March 2nd); attended the Sunshine Skyway Bridge Emergency/Operation Hot Stuff Tabletop Exercise coordinated and facilitated by FDOT District 7 staff (March 4th); provided list of February LEPC Activities/Initiatives as well as the LEPC Recap from the February 26th meeting to TBRPC members in conjunction with their March meeting (March 9th); provided Hazmatters report and requested LEPC membership changes to FDEM in association with the subsequently-cancelled April 16-17 SERC meetings (March 9th); attended the bi-monthly meeting of the Tampa Bay Spill Committee ["TBSC"] meeting (March 10th); attended the triennial meeting of the U.S. Coast Guard's Area Contingency Planning Subcommittee (March 10th); facilitated the (nearly) monthly meeting of the Pinellas Police Standards Council (March 11th); participated in the SERC's Training Task Force teleconference (March 11th); submitted Plan of Instruction and other required materials to FDEM/USDOT in association with a request to conduct three 8-Hr. Rapid ID and Hazards Analysis 2020 courses at the Hillsborough County Public Safety Complex on July 28-30, 2020 (March 16th); provided comments following my review of the DRAFT Operation Jet Lag Exercise After-Action Report/Improvement Plan as well as provided photos taken during the event for potential inclusion in the final version of the document (March 23rd); transmitted an executed Amendment to the FY 2019-20 LEPC Staff Services Contract to FDEM electronically (April 8th); submitted the following to FDEM - FY 2019-20 LEPC Staff Services 3rd Quarter Report (with supporting documentation and Invoice), the FY 2019-20 HMEP Program 2nd Quarter Report and requests for reimbursement for three HMEP-funded courses conducted during the quarter to FDEM (April 22nd); communicated/coordinated the specific verbiage for public noticing of the May 27th virtual LEPC meeting in the Florida Administrative Register (May 4th); provided review comments regarding Project Phoenix scenario questions that will be posed to both small businesses and local governments. Project Phoenix is a future, simulated exercise in which a catastrophic hurricane will make landfall in the Tampa Bay Region (May 18th); provided review comments regarding the DRAFT Project Phoenix Situation Manual (May 20th); participated in a virtual meeting with Elizabeth Paredes of Anuvia regarding hazardous materials reporting requirements. Their facility will be sharing the Mosaic site at 660 County Line Road in northern Hillsborough County (May 26th); hosted the virtual quarterly HMEP Training Subcommittee and LEPC meetings (May 27th); albeit a scheduling conflict precluded my personal participation in Port Tampa Bay's virtual Hurricane Exercise, TBRPC staff did participate (May 27th); participated in the virtual quarterly meeting of the Southwest Florida LEPC (May 28th); reviewed the proposed FY 2020-21 LEPC Staff Services Contract and provided comments to FDEM (May 29th); provided electronic copy of approved February 26th and draft May 27th LEPC Minutes to FDEM (June 2nd); transmitted the draft May 27th LEPC Minutes to the all Tampa Bay LEPC members (June 2nd); submitted Plan of Instruction and other required materials to FDEM/USDOT in association with a request to conduct a virtual 16-Hr. Hazmat Safety Officer course on July 20 - August 16 (June 4th); submitted Plan of Instruction and other required materials to FDEM/USDOT in association with a request to conduct three 8-Hr. Hazmat IQ courses on September 15-17 (June 4th); provided the March/April/May LEPC Activities/Initiatives as well as a Recap of the virtual May 27th LEPC meeting to TBRPC members in conjunction with their June meeting (June 8th); had the annual EPCRA Public Availability of Hazmat Information Notices published in the local newspapers in accordance with the FY 2019-20 LEPC Staff Services Contract (June 10th); submitted the LEPC membership changes, requested biennial recertification of all present Tampa Bay LEPC members and provided the quarterly Hazmatters report to FDEM staff for inclusion in July SERC meeting materials (June 11th); returned executed copy of FY 2020-21 LEPC Staff Services Contract to FDEM (June 13th); and posted the annual update

of the Tampa Bay LEPC Emergency Response Plan to the State Portal (June 19th); submitted POI and other associated course materials to FDEM for three proposed 8-Hr. Hazmat Technician Capabilities Evaluations courses to be conducted on August 17-19 for Hillsborough County Fire Rescue & Tampa Fire Rescue (June 23rd); sent out Flyer to promote Hazmat Medic course which was scheduled for July 13-17 at Seminole Fire Rescue Station #29 (June 25th); sent out Flyer to promote the Hazmat IQ courses which were scheduled for September 15-17 at the Pinellas County Fire/EMS Administration building (June 26th); reminded LEPC members to submit nominations for LEPC Chair & Vice Chair positions by August 31 (June 29th); notified LEPC members of the cancellation of the 2021 Hazmat Symposium (July 7th); sent out cancellation notice of Hazmat Medic course that was scheduled for July 13-17 at Seminole Fire Rescue Station #29 (July 8th); since the July 14th meeting of the TBSC was cancelled, transmitted written identification of recent LEPC initiatives for forwarding to the TBSC membership (July 9th); discussed questions Chief Robert Bassett of St. Petersburg Fire Rescue had regarding the LEPC Chair position (July 13th); sent out cancellation notice of Hazmat IQ courses that were scheduled for September 15-17 (July 14th); participated in "Train the Trainer Webinar for Project Phoenix 2.0: The Recovery" webinar which involved the simulation of a Category 5 hurricane making landfall in the Tampa Bay area (July 16th); submitted the FY 2019-20 HMEP Third Quarter Report to FDEM (July 21st); submitted the FY 2019-20 LEPC Fourth Quarter Report and associated materials to FDEM (July 22nd); provided welcoming remarks and an overview of the LEPC to virtual meeting attendees of the Hazmat Safety Officer course (July 23rd); and solicited the assistance of three Hazmat Technicians [i.e. Mike Bloski/SMFR, David Ray/PaCFR & Frank DeFrancesco] for the three upcoming Hazmat Technician Capabilities Evaluation Courses scheduled for HCFR/TFR at the Hillsborough County Public Safety Complex (July 28th).

➤ LEPC staff had additionally intended to attend, participate or host the following activities or events although each was subsequently cancelled on account of COVID-19: the Tampa Bay Safety Summit scheduled at the Tampa International Airport (March 25th); the (nearly) monthly meetings of the Pinellas Police Standards Council (on April 8, June 10 & July 12); the (nearly) monthly meetings of the Tampa Bay Regional Planning Council (April 13 & May 11); the quarterly State Emergency Response Commission meetings in St. Augustine (on April 16-17) and at an unannounced location (on July 16-17); the bi-monthly meetings of the Ammonia Handlers/Operators (on April 28 & June 23); the bi-monthly Tampa Bay Spill Committee meetings (May 13 & July 14); the tri-annual U.S. Coast Guard's Area Contingency Planning Subcommittee meeting (July 14th); the registration fees for six Hillsborough County Fire Rescue personnel to attend the 48-Hr. Robert E. Rumens Shipboard Marine Firefighting course in Norfolk, VA on June 22-27; and the 40-Hr. Hazmat Medic course initially scheduled for July 13-17, primarily for the Pinellas County Hazmat Team.

● **FINANCIAL STATUS REPORT.** Mr. Dietrich identified that the financial tables have not been updated since February 2020 due primarily to the reprioritizing of FDEM staff duties in association with response to COVID-19. The tables will all be updated in association with the October SERC meeting. Mr. Dietrich did acknowledge that the fees collected from facilities reporting their annual hazardous materials inventories statewide are used to fund Florida's LEPCs. The following tables are routinely updated and provided as part of the quarterly SERC meeting materials:

➤ Monthly RMP & EPCRA program revenues for the past two years, at minimum; and
➤ Breakdown of General Appropriations and Expenditures by Category for the Hazardous Materials Planning and the Risk Management Planning Programs over the past two years, at minimum.

● **HAZARDOUS MATERIALS INCIDENTS REPORT.** As informational, Mr. Robert Dietrich announced that detailed listings of Section 304 investigations, fixed facility and transportation-related hazardous materials incidents were prepared and included with the Agenda materials to describe incidents occurring between the period of March 1 - May 31, 2020. Such Reports included documentation of these incidents and portrayed the number of persons evacuated, injured or deceased down to LEPC District and ultimately County levels, to the extent known, applicable and/or available. These appear to be a portion of the incidents reported to the State Watch Office during the specified time period. The overall listing of reported incidents are routinely shared with the LEPCs, EPA and the SERC.

The following table constitutes a consolidation of data associated with “*Transportation Incidents with Evacuations, Injuries and Deaths; Hazardous Materials Incidents with Evacuations, Injuries and Deaths* [at fixed facilities]; and *Potential Section 304 Investigations*” recognized for the Tampa Bay LEPC District of the transmitted abbreviated listing of incidents:

County	Date Released	Type	Chemical	Amount Released (Lbs.)	Business Type	# Evacuated	# Injured	# Fatalities
Citrus	3/05/20	TR	Diesel Fuel	222	Traffic Accident	0	1	0
Hernando	NONE IDENTIFIED							
Hillsborough	3/11	304	Potassium Hydroxide	127	Steel Investment Foundries	N/A	N/A	N/A
	4/05	304	Sulfuric Acid	1,150	Phosphatic Fertilizer Manufacturing	N/A	N/A	N/A
Manatee	NONE IDENTIFIED							
Pasco	3/24/20	304	Muriatic Acid	29	Transportation	N/A	N/A	N/A
Pinellas	3/12/20	304	Sodium Hydroxide	6,103	Water Supply & Irrigation Systems	N/A	N/A	N/A
	5/11/20	FF	Styrene / Acetone	25 / 25	Plastic Manufacturing	25	0	0
TOTAL →						25	1	0

KEY: FF = Fixed Facility incident / TR - Transportation-related incident / 304 - Section 304 Investigation Launched

As has been previously indicated, if the reportable quantity has not been reached or cannot be determined, the amount is typically identified as “unknown.”

- **STAFF ACTIVITIES & REPORT BY SECTION.** Mr. Robert Dietrich identified that typical FDEM staff responsibilities were greatly affected with additional roles assigned in the State EOC in response to COVID. For example, RMP Inspectors were tasked with delivering Personal Protective Equipment (PPE) and other pandemic response resources throughout the State. FDEM staff also coordinated receipt and redistribution of the 2020 *Emergency Response Guidebooks*.

The following Information was provided within the current Agenda materials:

- breakdown of statewide *Hazardous Materials Incident Reports* by LEPC District and type from March 1 - May 31, 2020;
- graphic depicting the annual number of Hazmat Releases from January 1, 2002 to May 31, 2020;
- monthly enumeration of *Hazardous Materials Incident Reports* from January 1, 2010 to May 31, 2020;
- quantification of *E-Plan Filings* for Year 2019 by LEPC District (there were 12,200 total filings within the State as of May 31, 2020 and 2,012 within Tampa Bay);
- monthly quantification of EPCRA Filing/Technical Assistance calls received through May 31, 2020;
- annual enumeration of Chemical Data in E-Plan since 2013 in terms of the # of statewide facilities and # of chemicals as of May 31, 2020. Reporting Year 2019 Chemical data presently denotes

- 12,200 facilities in Florida with a total of 34,201 chemicals, slight decreases from the 12,639 facilities and 35,283 chemicals reported for Calendar Year 2018; and
- annual enumeration of on-line payment submittals since 2010. The number of online payments received annually has grown steadily between filing years 2010-19 with the exception of slight reductions experienced between 2010-11 and 2018-19. The number received in filing year 2010 was 473 and the number received for filing year 2019 was 3,101.

Mr. Dietrich concluded his remarks by acknowledging his surprise that COVID-19 did not appear to have had much impact on the compliance of facilities with the RY 2019 hazardous materials reporting requirements.

OTHER BUSINESS

- **2020 Hazmat Symposium.** Chief Jonathan Lamm identified that:
 - The 3.5-day Symposium was, again, hosted at the Plaza Resort & Spa in Daytona Beach on January 21-24, 2020.
 - There were a total of 627 registrants for the event, including 86 instructors, 48 vendors and 42 Symposium Administrative Staff members. This does constitute an increase from 586 that attended the 2019 Hazmat Symposium.
 - The Symposium committee received 82 White papers from parties interested in providing instruction associated with this year's event. A total of 68 courses were selected for conduct.
 - A registration cost of \$195 per student was imposed for attendance at the Symposium, whether the students attended one or more of the courses.
 - Much of the success of the Symposium can (and should) be attributed to the participation and support of the Florida Division of Emergency Management and all ten LEPCs within Florida.

Chief Lamm added that Board of Directors met a few months ago and decided to cancel the *2021 Hazmat Symposium* out of an abundance of caution. There remains much uncertainty with the pandemic and the level of planning for such an event is monumental, from instructors to training venues to hotel accommodations... Cancellation of the event was the only way to ensure the safety of all involved and to eliminate the potential additional exposure to first responders. The Board has since embarked on planning for the *2022 Hazmat Symposium*. It is anticipated that turnout will be even greater in 2022 due to cancellation of the 2021 event.

SERC member Michael Davis, representing the Florida Professional Firefighters, affirmed his attendance at the *2020 Hazmat Symposium* and acknowledged that it was a great event whereby a lot a valuable hazardous material training is/was provided in a single location. He proceeded to personally thank the FDEM and the Tampa Bay LEPC for arranging and accommodating his attendance.

- **January 2021 SERC Meetings.** Acknowledging the cancellation of the *2021 Hazmat Symposium*, Chief Jonathan Lamm proceeded to inquire from the Chair whether coordination efforts should continue to be pursued regarding the potential hosting of in-person January 2021 SERC meetings in Daytona Beach. Chair Guthrie responded affirmatively but acknowledged the uncertainty of restrictions for his department and throughout the State. He asked that coordination efforts continue with Anhar AlAsadi of FDEM staff and to move forward with the *Thomas Yatabe Award* and *Dwayne Mundy Lifetime Achievement* programs.

- **Hazardous Materials Awareness and Operations Level.** Mr. Lee Newsome identified that Rick Stilp has been the lead author of the update to the Hazardous Materials Awareness and Operations Level program. Even with the pandemic, Mr. Stilp was able to complete the first edition which will be forwarded to the SERC, LEPCs, Training Task Force members and key representatives from Law Enforcement, EMS and the Florida State Fire College. The proposed/updated training requirements and competencies will be a subset of the deliverable. SERC Chair Kevin Guthrie requested that a minimum of 60 day review and comment period be established due to the presence of an active hurricane season and the pandemic.

COMMENTS

- **SERC Membership.** Chair Guthrie advised that the proposed appointments to the SERC have been delayed for more than three years by personnel from the Governor's office. In addition, two SERC members have subsequently resigned, making it more difficult to attain quorums in future meetings. FDEM staff will continue to lobby the Governor's office to "urgently" make these appointments.
- **State Emergency Operations Center (EOC).** Chair Guthrie announced that the State EOC was initially activated in response to COVID-19 on March 7th and has remained activated for the (then) past 188 consecutive days. In addition, there had been more than 34,000 missions conducted in association with the pandemic, exclusive of many other emergencies [e.g. hazmat incidents, two Tropical Depressions, the nearly conducted Republican National Convention (in Jacksonville), the upcoming Super Bowl (in Tampa), wildfires, flooding].
- **Planning for the 2020 Hurricane Season.** Chair Guthrie mentioned that public sheltering continues to be evaluated and addressed in regard to potential storms that may threaten or impact the State since adhering to COVID-19 spacing guidelines within the shelters would be instrumental to ensure evacuee safety. Additionally, the Chair announced that the State would deploy Hazmat Teams as well as Search & Rescue Teams to assist with hurricane response & recovery operations to the extent warranted or needed.
- **Accolades.** SERC member Chief Mike Murphy personally thanked Kevin Guthrie, Robert Dietrich, Anhar AlAsadi and other FDEM staff for the countless hours and all they have done and will continue to do in response to everything.

ADJOURNMENT

Upon identification of no more issues to be brought before the SERC, Chair Guthrie successfully solicited a motion and a second to adjourn the meeting. Following his announcement that the next SERC meeting will be held virtually in October 2020 with on a specific date yet to be determined and/or announced, Chair Guthrie concluded the meeting at 11:01 AM.
