

September 2022 ONE BAY Newsletter

September ONE BAY Meeting

Please join the TBRPC on Friday, **September 16th, 2022 at 1:30 PM** for a virtual ONE Bay meeting to highlight the following regional projects:

- Regional Mitigation Assessment This TBRPC project will provide a network of community partners setting forth a single consistent methodology for vulnerability, risk analysis, and assessments with reduced focus on county boundaries in order to identify potential multi-jurisdictional or multi-county solutions.
- Hillsborough TPO Supply Chain Study The TPO is conducting this study to learn more about supply chains that are critical to bringing necessary products and services to Hillsborough County and how these flows could be slowed or stopped in different situations.
- MacDill Military Installation Resilience Review The TBRPC is partnering with MacDill AFB to complete a Military Installation Resilience Review, which is a community-driven initiative to analyze risks and future climate conditions and implement actions to foster, protect, and enhance military installation resilience and sustainability.

Resiliency Resources

Gulf of Mexico Climate and Resilience Community of Practice

The 2022 Climate and Resilience Community of Practice annual meeting will be held October 4th-6th, in Sarasota, Florida.

Go to <https://masgc.org/climate-resilience-community-of-practice/annual-meeting-2022> for a full schedule and to register.

Sustainable Communities Workshop

Sarasota County's 17th Annual Sustainable Communities Workshop will bring the community together to discuss sustainability priorities.

Go to <https://www.eventbrite.com/e/sustainable-communities-workshop-in-person-and-online-registration-369876489537> for a full schedule and to register.

Taking Stock Report Available

With support from the US Environmental Protection Agency's Gulf of Mexico Program, this study is focused on the economic and broad fiscal implications of climate driven increased temperatures on jobs, personal income and Gross Regional Product, a measure of the overall size of the region's economy.

Go to <http://www.tbrpc.org/wp-content/uploads/2022/08/Taking-Stock-Economic-Impacts-of-Climate-Driven-Heat-Impacts.pdf> to read the full report.

EPA Gulf of Mexico

One Bay meetings, newsletters, and additional outreach are being made possible thanks to support for the Environmental Protection Agency's Gulf of Mexico Program.
